

## Data Sheet

Stand-By Fire Protection has unveiled yet another market leading range of products, the Sentinel range. BSEN3 Kitemarked approved, this range is the choice of the discerning professional, with an outstanding balance of quality, performance and value. The range includes Water, Foam, CO2 and Powder models and offers solutions for almost all situations. The internationally-recognised BS Kitemark is assurance of dependable design and manufacture.

- Kitemarked to BS EN3
- Fully CE marked
- Tough, corrosion-resistant finish
- Polyethylene lining to Water and Foam extinguishers
- All units come complete with wall mounting bracket
- Full technical and operational support

### CO2 Extinguishers

Suitable for both electrical and flammable liquid fires, CO2 is non-damaging to electrical equipment and machinery. The product is one of the most robust CO2 fire extinguishers available on the market at present. The cylinder is made from an alloy/steel mix making the perfect combination of strength and a pleasing aesthetic appearance. Supplied with discharge horns, these extinguishers are ideal for workshop, industrial and office environments.

Product Code	Capacity	Fire Rating	Dimensions mm (H x W x D)	Working Pressure	Temp. Range	Material	Weight
2CO2ST	2 Kg	34B	585 x 165 x 105	56 bar @ 20oC	-20 - 60oC	Alloy Steel	6.95 Kg
5CO2ST	5 Kg	70B	760 x 180 x 140	56 bar @ 20oC	-20 - 60oC	Alloy Steel	14.5 Kg
